I am an IT Programmer focused on developing applications to support operational needs. I have experience building structured, user-friendly systems tailored to user requirements. I prioritize efficiency and system reliability, and I also have skills in UI/UX design to enhance user experience.

EDUCATION

Universitas Bina Insani – Bachelor of Informatics Engineering (S1 Teknik Informatika) **2021 - 2025**

- **IPK** 3.69 / 4.00 (Cumlaude)
- **Thesis:** Prototype of a Smart Parking Slot Monitoring System with Real-Time Notifications Based on Internet of Things (IoT)
- **Journal Publication:** Prototype of a Smart Parking Slot Monitoring System with Real-Time Notifications Based on Internet of Things (IoT)

EXPERIENCE

PT. Duta Graha Afiah - IT Programmer **November 2025 - Now**

- Developed various applications to support operational needs as an IT Programmer
- Built systems including security, marketing visit, medication reconciliation, and maternity records & partograph
- Developed features such as complaint/feedback systems, room cleanliness monitoring, and a learning center
- Focused on creating systems that are efficient, user-friendly, and aligned with user needs

PT Inovasi Kualiva Abhipraya - UI UX Designer **January - June 2024**

- Designed user interfaces and user experiences for web applications using Figma
- Created wireframes, interactive prototypes, and user-centered interface designs
- Collaborated with development teams to ensure designs align with system functionality

CERTIFICATIONS & TRAINING

- TOEFL Listening and Reading - Skor 630
- CEFR Language Assessment - Altissia Skor B2
- Beginner Level IoT Developer Training - Kelas IOT
- Competence Junior Graphic Designer - Badan Nasional Sertifikasi Profesi (BNSP)
- Competence Junior Web Developer - Badan Nasional Sertifikasi Profesi (BNSP)

SKILL

- **UI / UX Designer:** Figma, Prototyping, User Research
- **Web Development:** Livewire 3, Sql, Arduino, PHP, Laravel 12, CodeIgniter 3, Bootstrap
- **Internet Of Things:** Prototype of a Smart Parking Slot Monitoring System with Real-Time Notifications Based on Internet of Things (IoT), Temperature and Humidity Monitoring
- **Productivity:** Microsoft Office (Word, Excel, Powerpoint)

ADDITIONAL INFORMATION

- **Language:** Indonesia (Active), English (Passive).
- **Publication:** Internet of Things; Membuat Proyek dengan Modul ESP32” (ISBN 978-634-7198-37-2, E-ISBN 978-634-7198-38-9, Published in 2025).
